Below U.O.R. No.IAQ.951 LBPK of the 13th February 1952 from Government in the P.W.D.

No.G.118/13961,
Bombay, 7th March, 1952.

Returned with compliments.

2. The existing five generating sets installed at the Power House are capable of taking the total load of 200 K. W. and after the additional set of 100 K.W. is put into - commission, the safe loading capacity of the station will be about 280 K.W. As the present maximum demand on the generating station is about 198 K.W. which occurs only for a short time during the peak load period, the Company will be in a position to carry on with the loading capacity of 280 K.W. till such time as the peak demand rises upto 220 K.W., when it will be necessary for the company to order out an additional set of adequate capacity to meet the increased demand.

GOVERNMENT OF BOMBAY
Receipt No. 98535
Date 10-1-53
File No. LAN 31
P. W. D., BOMBAY

Quarterly progress report in respect of the Bijapur Elec. Supply Co. Ltd. Bijapur for the quarter ending December 1952

1 & 2 There are six sets. The rating of each and the maximum ~~demand~~ load the each set can take at present are :-

	Rating	Maximum load
Set. No. 1	30 K.W.	17.2 K.W.
" " 2	30 K.W.	22.0 K.W.
" " 3	62 K.W.	33 .0 K.W.
" " 4	81 K.W.	44.0 K.W.
" " 5	95 K.W.	66.0 K.W.
" " 6	100 K.W.	88.0 K.W.
	398 K.W.	270.2 K.W.

3 During the quarter the set no. 5 of 95 K.W. was overhauled and new pistons with piston rings were replaced.

4 The total connected load for Power and lighting 451.34 K.W.

5 The maximum demand on the generating station is 203 K.W. between 6-30 P.M. to 7 P.M.

6 The followings interuptions in supply were made by the Supply Co.

Date	Duration	Section	Reasons
8-12-52	6-30 P.M. to 8-30 P.M.	Indi & Hospial Road	The Set No 4 failed due to the break d own in the gear wheel
14-12-52	-do-	-do-	Set No. 5 kept idle for repairs of the commutator.

7 Guinine spare parts are available.

8&9 No additional plant is ordered nor it is likely to be ordered during the near future.

10 The present supply position is not satisfactory because there is no standing plant of sufficient capacity to meet the maximum demand if the larger sets fails. Also the engines have become old and the relularity of the supply cannot be assured

11 There are 183 requisitions pemding with the Supply Co. It is stated by the Supply Co. that these would be connected in a course of time.

12 Additional plant of 150 K.W. capacity is required to meet the requirements in lighting and power of the town.

13 No quota system at present.

14 The distribution system is not defactive to geve rise to frequent interuptions in supply.

Office of the
Electrical Sub-Inspector
Sholapur, dated 8th Jan. 1953

29 p 96 no 31

Below U.O.R. No.LBP 2651/135, dated the 8th January 1953, from Government in the Public Works Department.

No. LRM31/17313 of 1953.
Bombay, 16th February 1953.

Returned with Compliments:-

There are six generating sets in working order with the total safe carrying capacity of 270 K.W. The maximum demand goes upto 203.K.W.

There were two interuptions on 8th December 1952 and on 14th December 1952 of about two hours' duration from 6-30 to 8.30 P.M. due to the failure of set No.4. The set No.5 is kept idle for repairs. 183 requisitions are pending with the Supply Company.

There cannot therefore be said any improvement in the supply position. It has been reported by the Electric Inspector, Poona that the 100 K.W. set has been received on the sight and the Supply Company may please be requested to expedite the erection of the same.

2-1

No.LRM.31/ 10384 Of 1952.
P.W.D.Offices, Churchgate Street,
Fort, Bombay(1), 30th October 1952.

To

The Secretary to Government,
Public Works Department,
Bombay.

Subject:- Electric Supply at Bijapur.

(2-27) Referring to Government Public Works Department endorsement No.LBP 2651 K, dated 1st October 1952. I have to report that there are at present 6 sets working with a total capacity of 398 K.W. and a safe loading capacity of 270 K.W.

The maximum demand of the station is No.203 K.W. and the same occurs between the hours 7 P.M. to 8-30 P.M.

There have been 11 shut downs (partial) due to the failure of sets No.5 and 6 as well as failure of water circulating pumps. The duration of the partial shut downs ranged from 10 minutes to 4 hours.

As the engines have gone old and the maintenance is not very efficient the shut downs are frequent and supply unsatisfactory. About 175 applications are pending at present.

Another set of 100 K.W. capacity will be required as a stand by and to meet the increased demand.

The

The Supply Company may therefore be asked to take
arly steps to install a set of 100 K.W. capacity.

Sir,

p 33

We are in due receipt of your letter No. LBP2651 K of 3-11-52 and No. No. LBP2651 K of 12-12-1952 and have noted the contents.

We have made improvement in the maintenance of the Engines and the number of failures during the last 6 months are fewer than what they were previously.

We are glad to inform you that the 100 K.W. Generator which we had ordered from U.K. in 1946 has now arrived in Bombay and it would soon be railed to this place. The work of providing space for the erection of the above Set is vigourously going on. For accomodating this ~~Set~~ Big Set we have to shift our 30 K.W. Sets to some other place in the Power House and then to instal this big set in place of the small Sets.

We hope to finish all the above works in about 4 to 5 months time. Thus, it will be seen, we are quite in earnest to instal a 100 K.W. Set as required by the Government in as short a time as is possible.

Yours faithfully,

MANAGER.
THE BIJAPUR ELECTRIC SUPPLY
CO: LTD: BIJAPUR.

Copy forwarded with respects to the Executive Engineer, Poona Electric Division, Poona, for information.

The Bijapur El. Supply Co. Ltd.,

Bijapur.

Sub: Electric Supply at Bijapur.

Sirs,

It is reported to Govt. that the supply of electric energy was interrupted on 8th Dec and 14th Dec. 1952 for about two hours from 6-30 p.m to 8-30 p.m. due to failure of set No 4 and that set No 5 is idle for want of repairs.

2 It is also reported that the new 100 k.w. set received by you still remains unerected. You are therefore requested to repair set No 5 and to erect the new 100 k.w. set

(P.T.O.)

immediately —

~~immediately as soon as possible in regular supply & comply with your earliest, so that a regular supply will be maintained and the pending requisitions. ~~ ~~applications will be supplied with~~ electrical energy. The action taken in this matter should pl. be reported to Govt.

Public Works Department, Bombay No.1.

Subject:- Electric Supply at Bijapur.

Sir,

We are in receipt of your letter NO. LBP 2651 K. (P 37) dated 20th February 1953.

Set NO.4 and Set NO. 5 are in working order. We may be allowed to state that due to failure of the Sets only part of the town was cut off from Electric Supply between 6-30 P.M. to 8-30 P.M.

The work of alloting space in the power house for erection of the new 100 Kw. Set is going on apace and as already stated in our letter No. G/381 of 31.12.52 (P 35) addressed to the Executive Engineer, Poona Elec. Drn. Poona, for information.

We would be able to complete the work within a couple of months.

Yours faithfully,

MANAGER
THE BIJAPUR ELECTRIC SUPPLY
CO: LTD: BIJAPUR.

To

The Chief Engineer,
Public Works Department,
Bombay.

Subject:- Electric Supply at Bijapur.

Reference: Government Letter, Public Works Department, No.LBP 2653 K, dated the 10th March 1953.

The 100 K.W. Set has been arrived at the site of the Power House. At present the work of excavation of the foundation for the set is in progress, after that, the erectio of the set will be taken and completed by the end of May 1953.

In order to make room for the 100 K.W. set, the two sets No.1 and 2 of 30 K.W. each have been removed from the foundation. The erection of set No.2 at some other place in the power house is being taken up and the set will be put into commission shortly.

As Regards the present supply position there are at-present four sets working with the total safe carrying capacit of 231 K.W. The maximum demand goes upto 213 K.W.

There were two interruptions on 16th January 1953 and on 27th February 1953 from 8 P.M. to 10.30 P.M. due to the failure of sets No.5 and 6.

The condition is likely to be improved when the 100 K.W. set is put into commission and the existing sets are repaired satisfactorily.

Public Works Department,
Bombay.

Subject:-Electric Supply at Bijapur.

Reference:-Government Letter, public Works Department, No.LBP.2653.K dated the 8th August 1953. P 45 49

There are in all six generating sets working in the power house at Bijapur out of which, set No.4 is out of order for the reasons stated below:-

Set No.	Rated Capacity.	Safe Carrying Capacity.
1	30 kW.	This set has been permanently dismantled.
2	30 kW.	22 kW.(working since 30-4-5
3	62 kW.	30 kW.
4	81 kW.	Out of order since 2-6-53 due to breaking of connecting rod resulting in a cracked bed plate and damaged cylinder body.
5	95 kW.	69 kW.
6	100 kW.	80 kW.
7	100 kW.	100 kW. new set brought into commission on 25-11-5

The rated and safe carrying capacity of the station is 468 and 301 kW. respectively.

The firm capacity of the station is 201 kW.

The peak load of the station rises upto the limit of 203 kW. between the hours of 7-20 and 8 P.M.

The putting into commission of the 100 K.W. new set has materially helped as Set No.4 is out of service.

There are in all 130 requisitions pending with the Suppl Company.

In view of the extensive damage to Set No.4, the Supply Company may be asked to order out a new set of 100 kW. immediately

Bijapur 9- 6- 54. 195

To,

M. S M.Ry.

The Assistant Secretary to the Government of Bombay,
Public Works Department;

Subject :- Electric Supply at Bijapur.

Sir,

With reference to your letter No.LBP.2653 K. of 29th December (8-53) 1953 & your reminder of (8-54) 1-6-54, we have to state as under .-

We are giving here below the rated and safe load carrying Capacities of our Generating Sets.-

Set Nos.	Rated Capacity.	Safe Capacity	Remarks.
1.	-	-	out of order.
2.	30. K.W.	23.K.W.	
3.	62. K.W.	33. K.W.	
4.	-	-	Out of order.
5.	95. K.W.	69. K.W.	
6.	100. K.W.	79. K.W.	
7.	100.K.W.	79. K.W.	
Total .	387.K.W.	283. K.W.	

From the above statement it would be clear that our working capacity of the Generating plants is 283. K.W.

Please enlighten on the "Firm Capacity" of our Station which you have taken as 201.K.W.

We are at present fully satisfying the needs of the existing consumers.

In place of 81.K.W. Generating Set No.4, we are going to instal another Diesel Engine and we hope to be able to complete the installation before Divali.

We hope our above statement will be found satisfactory

Yours faithfully,

MANAGER.
